PRESIDENT CALLS INDUSTRIAL AIDES TO PEACE TABLE

Washington, Dec. 10. (AP)—The industrial members of President Wilson's "war cabinet" which met at the White House every Wednesday during the country's participation in the war, will join the President as a unit in Paris and act as his advisers at the peace conference on economic, industrial and reconstruction problems in Europe affecting the future peace of the world.

Those who will make up the party to sail upon word from President Wilson are Bernard M. Baruch, chairman of the war industries board, Federal Administrator Harry A. Garfield and Vance McCormick, chairman of the war trade board, Edward N. Hurley, chairman of the shipping board, and Food Administrator Herbert Hoover, already are in Europe.

The President's intention to use the "war cabinet" became known today after notification to Mr. McCormick by Secretary Tumulty that the President expected him to hold himself in readiness to proceed to Paris. Dr. Garfield and Mr. Baruch already had been notified, but until now it had been assumed that they would go over individually when called.

Mr. Baruch, it is understood, will ask Leonard Replogle, steel administrator of the war industries board, to accompany him to Europe and in working out problems of reconstruction involving steel and iron ore. In this connection it is said to be likely that a survey will be made of the amount of steel required from America and also of that which will be available from the iron fields in Lorraine.

It is understood that some of the cabinet officers who were members of the "war cabinet" also may go to France later.

PRESIDENT SHOWN JUST HOW DESTROYER WOULD GET U-BOAT

On Board U. S. S. George Washington, Dec. 9. (AP)—By wireless to the Associated Press—President Wilson stood on the bridge of the George Washington this afternoon and saw a United States destroyer stage a thrilling demonstration of the work of repulsing a submarine attack. A touch of realism was given by the drill of the men on board the liner and the conveying ships. The great liner was gliding through the tropical waters like a chip on a duck pond when bugles and alarm bells called the men to battle stations. President Wilson was taken to the bridge by Captain McCanley so that he might get a better view of the demonstration.

A destroyer which had been lagging astern suddenly leaped forward her funnels vomiting smoke and white spray dashing from her bow as she tore through the water at a clip of thirty knots an hour. As the destroyer came abreast of the liner, depth bombs were dropped and great geysers were thrown high into the air as the warship zig-zagged its way through the waters beneath, which was supposed to lack the enemy submarine. Each explosion was distinctly felt on board the George Washington. The concussion sounded like heavy blows being struck against the side of the vessel.

President Wilson was most interested in the demonstration and asked questions about it going into the most minute detail.

The George Washington will pass into the Azores tomorrow morning and will turn northward on the last leg of the voyage. There will be no stop at the Azores.

(AP)—William Hohenzollern, the former German emperor, has had several interviews at Amsterdam with two German experts on international law with whom he discussed his personal position, according to an Amsterdam dispatch to the Express. These experts arrived and left Amsterdam in a rather mysterious manner.

It is understood, according to the dispatch, that Herr Hohenzollern is writing his autobiography and the history of his reign. He will explain his attitude before and during the war, it is said. The book, which will be long, is intended for publication, or if its author is tried before an international tribunal, may be read as a part of his defense.

DID HOLLAND PLAN KAISER'S GETAWAY?

Paris, Monday, Dec. 9. (AP)—The city council at Spa has documentary evidence proving that a Dutch general came to Spa to meet the former German emperor before his flight into Holland, according to the Matin. It would appear, therefore, that his reception and that of the crown prince and suite at the Dutch frontier was a "mere comedy," the newspaper continues.

FRENCH TANK TURNS TO WAYS OF PEACE

Paris, Sunday, Dec. 8. (AP)—Industrial use already has been made of the tank. Scheidemann declared that the government had 99 per cent of the German population behind it, "but nevertheless it is sitting on a powder keg."

"Socialization along lines demanded by the incompetent," Scheidemann added, "would ruin industry and trade. If we remain longer in this revolutionary crises we are lost beyond hope of rescue and will not have a piece of bread. If the people do not come to their senses they will be brought to their senses by the Americans."

HUN SOLDIER ONCE IN NATIONAL GUARD ASKED TO SEE SMITH

With the American Army of Occupation Dec. 10. (AP)—A number of Germans who had lived in the United States for years, greeted the American troops on their arrival in Coblenz. Among them was Ernest Westfall whose father lives in Enid, Okla. Westfall, formerly a member of the Missouri national guard, left Kansas City at the outbreak of the war. He eventually reached Berlin and joined the German army but was discharged after several months' service owing to illness.

Westfall said he came to Coblenz from Berlin hoping to see Wm. A. Smith, formerly captain of the Kansas City guards of which Westfall was once a member. Westfall was informed by the Americans that Smith, serving the 35th Division as a major, was killed at Chappoy soon after the Meuse-Argonne offensive began.

The American forces occupying Coblenz, comprise the second battalion of the 39th Infantry. The reception of the Americans was most friendly. There was no trouble of any kind.

RUSSIA CANNOT SIT IN PEACE CONFERENCE HAS NO GOVERNMENT

Washington, Dec. 10. (AP)—Russia will not be formally represented at the peace conference. It was said today that there is no government in Russia which the associated nations recognize as having the power to confer upon delegates the right to represent that country at the Paris assembly.

Undoubtedly influential Russians will be in Paris during the sessions but they will be present purely in an advisory capacity. Russia's voice in the conference will thus be heard but the nation will have no part in the framing of the great treaty of peace.

MARSHALL PRESIDES AT CABINET MEETING, FIRST TIME IN HISTORY

Washington, Dec. 10. (AP)—Vice President Marshall presided over today's cabinet meeting at the request of President Wilson who is en route to Europe and set, according to the White House staff, a new precedent in the conduct of American executive affairs. No other vice president as far as records show ever presided at a cabinet session.

In taking his seat Mr. Marshall set at rest any theories that he might be acting as President. He said he was attending the gathering "informally and impersonally, not undertaking to exercise any official duty or function."

Before going to the White House Mr. Marshall explained that the President before departing for Europe had asked him to preside at cabinet meetings and had repeated the request by wireless from the George Washington.

No business requiring the attention of the President developed at the congress session it is said and the wireless carried no message from it to the presidential ship.

The cabinet meeting today was the last which Sec. McAdoo will attend as he will be succeeded next Monday by Carter Glass. Mr. McAdoo bade farewell to the members of the cabinet and attached as the executive officer.

Coe, chief of coast artillery, in his annual report, says. The nominal range of a gun of this size would be forty miles, the report says, "but longer ranges for special types are possible if desired."

The limit has not yet been approached in the size of the tractor-drawn artillery, declares General Coe, intimating that a successor to the German "Big Bertha" is to be expected.

DOUGLAS FAIRBANKS DIVORCED BY WIFE

New York, Dec. 10. (AP)—Douglas Fairbanks, comedian and movie star has been divorced by his wife. A process server or Mrs. Beth S. Fairbanks who is a daughter of Daniel J. Sully, the former cotton king, served the complaint on Fairbanks in this city on Oct. 22 last, but secrecy was maintained until the suit came to trial before Supreme Court Justice J. Addison Young in his chambers at New Rochelle.

There was brief testimony by an actor and a moving picture director, with defense by Fairbanks, who is now "on location" in California, and within a few hours Justice Young had signed an interlocutory decree, operative at once. Mrs. Fairbanks was also given the custody of their 8-year-old son. Fairbanks was not even represented by counsel. All is said to have been "amicably settled."

Mrs. Fairbanks named no co-respondent, who was merely referred to as "an unknown woman."

According to a statement made in his wife's divorce petition, the actor's salary is more than \$10,000 a week.

Howard was a familiar figure on Bonham street until he got into trouble. He was gentle in appearance, dressed respectably and wore a derby. Capt. Mason was teaching at Atlanta when he enlisted in the army and went to an officers' training school where he received a lieutenant's commission. He was a very handsome man and was a fine specimen of manhood. After going to France he received a promotion to captain and during the fighting lost an arm and an eye as a result of being gassed. Poison got in his shoulder and affected his arm, necessitating amputation. He was recently brought back to America and taken to the hospital in Washington, where he had to undergo another operation for the removal of dead bone in his shoulder.

W. L. Mason of Ambia, the father of Capt. Mason, received a telegram from him yesterday stating that he was married at 8 o'clock Monday night. He and his bride became acquainted while he was teaching at Ambia and she at Howland, and they had been corresponding two or three years. She was teaching in San Angelo when he arrived from France and she resigned her position and went to Washington to marry him. She is a very bright, interesting young woman and didn't have to teach, as her father is president of a bank, owns a great deal of land and many head of cattle, and is reputed to be worth several hundred thousands of dollars.

Capt. Mason was in hope of being able to spend Christmas at his Lamar county home but on account of having to undergo a second operation he will hardly be able to leave the hospital. As soon as he is able he is going to New Jersey to get an artificial eye.

PRETTY HOME WEDDING ON LAMAR AVENUE

Mr. Kendall B. Burficks of Howland and Miss Johnnie Ludwick of Paris were married at 2:30 o'clock yesterday afternoon at the home of the bride's parents at the corner of 33rd street and Lamar avenue, the ceremony being performed by Rev. W. B. Kendall in the presence of a house full of friends, neighbors and invited guests, including several from out of town. The house was tastefully decorated in ferns and chrysanthemums. Little Misses Hazel Dewese and Leola Leverett acted as flower girls and Master Mac Cox ring-bearer. Mrs. Marvin Allen, a sister of the bride, played the wedding march, and Mrs. Hoyt Brazelton sang. The bride is the eldest daughter of Mr. and Mrs. O. W. Ludwick, and having been born and reared in Lamar county, she has many lifelong friends. The groom, who was formerly from Tennessee, is in the drug business at Howland and is highly esteemed by his friends both socially and in a business way.

ATTACKED BY GERMANS WITH HAND GRENADES

Among the Lamar county boys mentioned in yesterday's casualty list from France appeared the names of Floyd H. Phillips of Deport, degree of wound undetermined; Eddie F. Jackson, the son of J. F. Jackson, a farmer near Blossom, missing in action; Claud C. Nathan of Paris, severely wounded, and Hugh D. Akin of Paris, severely wounded. Hugh Akin was at first reported killed. He is the son of Mr. and Mrs. W. J. Akin, and they have received two or three letters from him since he was wounded. The last letter was written October 31.

He stated that he was wounded five times in both legs and one arm, but only one of them was severe and necessitated an operation. The wounds were all inflicted at the same time with a hand grenade and some broken glass had to be cut out of his leg. He is a corporal in a machine gun company and he wrote that four Germans slipped in on them and attacked them with hand grenades. Three of the Germans were killed. He didn't state what became of the fourth. He wrote his parents that he had sufficiently recovered to throw away his crutch.

Claud Nathan is a son-in-law of Mr. and Mrs. J. N. House. His wife, who is making her home with her parents while he is away, has received several letters from him since

he was hurt. He stated that he was slightly gassed in September, and that he was in the hospital only about a week. He was getting along all right when last heard from.

DIED FROM ILLNESS

CONTRACTED ON VOYAGE

G. W. Steely received a telegram yesterday afternoon about 4 o'clock announcing the sad news of the death of his brother, D. H. Steely of Corsicana. Mr. Steely states that his brother sailed for France Sept. 24th and was taken sick on the ship and when Liverpool was reached he had to be taken from the vessel and had been in the hospital more than two months. He contracted pneumonia on the voyage across the sea. The last news Mr. Steely had from his brother was written Nov. 8th and he said he had been sick but was better and that he hoped to be home before long. He praised very highly the Red Cross nurses. Mr. Steely said he and his family had all been very anxious for his brother's safety and welfare and were planning a family reunion when he came home. Mr. Steely does not know whether his brother had started on his journey home or just where he was when death came as the message did not state.

INFLUENZA DEATHS ARE PREVENTABLE SAYS DOCTOR

Chicago, Dec. 10, (AP)—Ninety per cent of the deaths from influenza and pneumonia are preventable, when a proper vaccine is used, according to an address by Dr. E. C. Rosenow of Rochester, Minn., before the annual meeting of the American Public Health association today.

Surgeon General Blue, head of the United States public health service, also a speaker at the conference, said that nearly 350,000 deaths occurred among civilians from September 1, 1918, to December 1, 1918, from influenza and pneumonia.

Dr. Rosenow read figures on inoculations around Rochester showing that after the third inoculation there were nine cases of influenza per thousand against 220 per thousand among the uninoculated, and one and eight-tenths cases per thousand of pneumonia against fourteen per thousand among those not inoculated. Over twenty thousand persons were given the three inoculations and their cases were compared with 61,000 not given the treatment. The deaths from

influenza and pneumonia among those inoculated were one-tenth those among the uninoculated, Dr. Rosenow showed.

MARRIAGE OF COUPLE FOUND TO BE ILLEGAL

Syracuse, N. Y., Dec. 9.—On Feb. 23, 1910, Clifton H. Newport and Miss Olive May Wells, each 23 years old, called on the town clerk of Van

Buren, in this county, obtained a marriage license had it framed, hung it on the parlor wall and set up housekeeping.

Four children blessed their union. When the draft was called Newport felt justified in claiming exemption

on the ground of dependent wife and family. Mrs. Newport was requested to sign the affidavit accompanying the application for deferred classification and, as she could not give the name of the clergyman or magistrate who had performed the ceremony, she brought the framed certificate with her for examination.

The two were informed that their marriage certificate was a false one and they were grieved. They were advised to have a legal ceremony performed without delay.

George H. Haight, justice of the peace of the town of Onondaga, examined the 8-year-old marriage license and pronounced it just as good as a new one. Mr. and Mrs. Newport were united by a tie calculated to stand forever.

Government clerk examinations Paris soon. Customs, Internal Revenue, Income Tax, Railway Mail, Postoffice, \$1,100-\$1,800. Experience unnecessary. LIFE CONVICT FREE; GOES HOME TO DIE

Des Moines, Iowa, Dec. 10.—Another life prisoner at Anamosa is going home to die—or at least to the only place which he might be permitted to call home.

John H. Cater, convicted a quarter of a century ago for the murder of George Wenett, in Winneshiek county, and sentenced to life imprisonment, was notified that his sentence had not only been commuted to 55 years, but that upon recommendation of the state board of parole he would be permitted to go to the home of his sister at Harmony, Minn., just 20 miles north of the town of Burr Oak, in which the alleged crime was committed.

The recommendation in Cater's behalf is based upon the fact that he is 69 years old, is broken in health, is a paralytic, and the prison physician declares him to be in a critical condition.

The Cater case recalls another of those sensational crimes which occurred in Iowa a generation ago.

Cater and Wenett were both residents of Burr Oak. Cater was married and had two daughters, aged 16 and 13 years. Wenett, a single man, worked some for Cater and at times boarded with the family.

There had been some trouble between Cater and his wife over the sale of a lot. It was also claimed that Wenett was anxious to marry the older Cater girl, that the mother favored the match and the father opposed it.

One night the mother disappeared and the daughter, going to the barn, discovered the feet of her mother protruding from under a pile of hay. She had been killed by the infliction of heavy blows on the head. Soon after this the body of Wenett was found in the schoolhouse yard 40 rods distant. He had been shot and a gun was discovered near his body.

Feeling ran high against Cater and a change of venue for trial was granted to Fayette county. The defense made the claim that Wenett had killed Mrs. Cater and then himself.

Following conviction an appeal

was taken and the supreme court reversed the case on question of trial procedure. A second conviction was secured from which no appeal was taken.

Cater's case had been before the legislature and withdrawn, the same as in the Van Tassel case from Chickasaw county, and had once been considered by the parole board resulting in an adverse report.

Cater has been in prison twenty-four years, has constantly maintained his innocence and has a prison record without a mark for breach of discipline.

No recent protests have been received from Winneshiek against Cater's liberation.

"SAFETY FIRST," AND HOW TO PLAY IT

The most interesting game, intricate in some details, which every automobile owner should know, is generally known as "Safety First." Experience is the most costly teacher. Yet our advice, born of other people's experiences, is free. An auto, if worth the money you put into it, is certainly worth every protection you can give it. If stored in our modern hostelry, it has positive protection against damage by cold, nasty weather, against accidents, and against thieves.

Another precaution: Don't permit a minor defect to develop into major trouble. Have your car inspected by our mechanics and avoid a possible disaster, or at least much money for parts and repairs.

We supply Anti-Freeze for insurance against freezing radiators.

We supply all standard and many novel accessories.

Let us help you play safety first consistently. When in trouble phone 1138. THE MOTOR INN.

NOTHING TOO GOOD FOR MODERN GYPSY

Terre Haute, Ind., Dec. 10.—One of the most recent and conclusive proofs of the old saying that "lively does the business," is the advent of the modern gypsy tourist, who travels about in his 20th century limousine de luxe and "takes nobody's dust" when he hits the pulgic highways for a change of base.

A band of modernized gypsies have established a camp on the Darwin road along the banks of the placid Wabash river, west of this city, but it is far removed from the atmosphere and environment of the old-fashioned Romany camp, usually surrounded by hound dogs, howling babies and shabby covered wagons.

The canvas-top vehicles have been relegated to the rear, with other old methods, giving place to motor cars ranging in type from the universal runabout to the last word in six-cylinder plus ultra.

The annual spring washing day, heretofore accompanied by noxious odors of lye, soap and elbow grease at the well of some hospitable and accommodating farmer, is now made genuine pleasure by up-to-the-minute washing machines propelled by electricity, carried with them in an auto and most conveniently attached to the car when occasion so demands.

Thermos and hot water bottles have made their advent to replace the old oaken bucket and the men are observed wearing stylish derby hats and smoking 10-cent cigars.

The babies, while the same yowling kiddies, are now pacified in cradles carried in the autos and rocked by horses carried for that exclusive purpose. The campfire has sidestepped for the kerosene stove and "bridge" takes its place as an evening's diversion for the women after the afternoon tea or an hour profitably spent telling one's past and future for "two bits," or more if it can be wheeled out of the semi-hypnotized patron.

"The Life of Leonardo du Vinci," William James' "The Life Hereafter," enhancing their fortune-telling, have been added to the library, supplementing Jesse James, Cole Younger, Wild Bill, Daredevil Dick, "Viola, the Vampire," and other lighter-vein literature.

An old farmer passing the camp in his wagon, ejaculated as he glanced back over his bouncing load of turnips and pumpkins, "How in h—l do they do it? Here I've tended my 160-acre farm the past twenty years and these low-browed horse traders have acquired more comforts than I ever expect to get. Our grand dads told us not to swap horses in the middle of a stream, yet these perpetual and eternal picknickers swap them at any old place, and must get the best of it or they wouldn't be so prosperous."

"How in h—l do they do it?" he repeated as he chuckled to his horse and drove on toward the city.

PUBLIC IS WARNED Against Taking Substitutes for Nuxated Iron

Physicians Below Say That Ordinary

**STRENGTH, POWER

United States Judge Atkinson
Gives Opinion

Careful investigation by physicians among
druggists and patients has revealed the fact
that there are thousands of people taking
iron who do not distinguish between or-
ganic iron and metallic iron and these such
persons often fail to obtain the vital energy.

Therefore, phy-
sicians, mentioned
below, advise
those who feel
the need of a
strength and en-
durance which
they seek, simply
because they have

GAVE AWAY \$10,000 OF \$35,000 LOOT

New York, Dec. 10.—Samuel
Shapiro, the 19-year-old messenger
arrested on a charge of stealing \$35,-
000 in Liberty bonds from a firm of
stock brokers, has been held in
\$1,000 bail for a hearing.

The police say that when Shapiro
was arrested he carried \$22,000 in
Liberty bonds and \$2,000 in cash;
that he told them to whom he had
given \$10,000 of the bonds, and said
he had "been living high" on the
other \$600.

When Shapiro got his position
with the brokers a few weeks ago,
the police say, he called himself
Harry Shaw. His duties were to deliv-
er bonds in the morning and to
collect checks in the afternoon. One
morning he was sent to deliver \$500
worth of bonds. He got back just
as a messenger left \$25,000 in bonds
on the cashier's window. The police
say Shapiro took these bonds and
\$10,000 more which were near.

He remained in the office until he
was sent to make his check call-
ation. When he failed to return the
firm learned the \$500 worth of bonds
had not been received. Then the
\$25,000 in bonds were missed.

Bertha Shapiro, the boy's sister,
said:
"Sam telephoned to me that he was
going away. He said he had stolen
some bonds. I told him he must re-
turn every cent, even if he had to fly
himself up to the police. I did not
hear from him and thought he had
taken the bonds back. I think he was
on his way to return them when he
was arrested."

Bertha added that her brother
was ambitious to help his family, had
never been in any such trouble before
and was paying for her tuition in an
art school. Their father is a travel-
ing salesman and their mother is a
saleswoman.
